

POWERED LOUDSPEAKERS  
**DZR SERIES**

**DZR10 / DZR10W**

Powered Loudspeaker

*The DZR10 is 2-way bi-amped powered loudspeaker that offers superb clarity at an impressive 137dB SPL. With best-in-class SPL performance, sophisticated DSP processing, and unrivaled low-frequency sound reproduction, the DZR10 realizes a truly professional sound delivered with a level of power that belies its compact, lightweight design.*

- 2-way powered loudspeaker with a 2" HF and a 10" LF
- Maximum 137dB SPL and 44Hz-20kHz frequency range is ideal for today's audio engineering demands
- High power 2000W Class-D amplifier module
- 96kHz DSP and FIR filter for true high-resolution sound with super low latency
- Features Advanced FIR-X tuning, the combination of FIR filtering and correct EO for minimizing phase distortion
- Access a variety of DSP functions and load presets, or make precise adjustments to PEQ, delay and routing etc. via the intuitive LCD display

**DZR10-D / DZR10-DW**

Powered Loudspeaker

*The DZR10-D is a Dante-equipped 2-way bi-amped powered loudspeaker that offers superb clarity at an impressive maximum SPL of 137dB. With best-in-class SPL performance, sophisticated DSP processing, and unrivaled low-frequency sound reproduction, the DZR10-D realizes a truly professional sound delivered with a level of power that belies its compact, lightweight design.*

- 2-way powered loudspeaker with a 2" HF and a 10" LF
- Maximum 137dB SPL and 44Hz-20kHz frequency range is ideal for today's audio engineering demands
- High power 2000W Class-D amplifier module
- 96kHz DSP and FIR filter for true high-resolution sound with super low latency
- Features Advanced FIR-X tuning, the combination of FIR filtering and correct EO for minimizing phase distortion
- Equipped with Dante I/O (2in/2out) and features SRC (sample rate conversion) allowing 48kHz device compatibility

**DZR12 / DZR12W**

Powered Loudspeaker

*The DZR12 is 2-way bi-amped powered loudspeaker that offers superb clarity at an impressive 139dB SPL. With best-in-class SPL performance, sophisticated DSP processing, and unrivaled low-frequency sound reproduction, the DZR12 realizes a truly professional sound delivered with a level of power that belies its compact, lightweight design.*

- 2-way powered loudspeaker with a 2" HF and a 12" LF
- Maximum 139dB SPL and 39Hz-20kHz frequency range is ideal for today's sound engineering demands
- High power 2000W Class-D amplifier module
- 96kHz DSP and FIR filter for true high-resolution sound with super low latency
- Features Advanced FIR-X tuning, the combination of FIR filtering and correct EO for minimizing phase distortion
- Access a variety of DSP functions and load presets, or make precise adjustments to PEQ, delay and routing etc. via the intuitive LCD display

**DZR12-D / DZR12-DW**

Powered Loudspeaker

*The DZR12-D is a Dante-equipped 2-way bi-amped powered loudspeaker that offers superb clarity at an impressive maximum SPL of 139dB. With best-in-class SPL performance, sophisticated DSP processing, and unrivaled low-frequency sound reproduction, the DZR12-D realizes a truly professional sound delivered with a level of power that belies its compact, lightweight design.*

- 2-way powered loudspeaker with a 2" HF and a 12" LF
- Maximum 139dB SPL and 39Hz-20kHz frequency range is ideal for today's professional audio demands
- High power 2000W Class-D amplifier module
- 96kHz DSP and FIR filter for true high-resolution sound with super low latency
- Features Advanced FIR-X tuning, the combination of FIR filtering and correct EO for minimizing phase distortion
- Equipped with Dante I/O (2in/2out) and features SRC (sample rate conversion) allowing 48kHz device compatibility

**DZR15 / DZR15W**

Powered Loudspeaker

*The DZR15 is a 2-way bi-amped powered loudspeaker that offers superb clarity at an impressive maximum SPL of 139dB. With best-in-class SPL performance, sophisticated DSP processing, and unrivaled low-frequency sound reproduction, the DZR15 realizes a truly professional sound delivered with a level of power that belies its compact, lightweight design.*

- 2-way powered loudspeaker with a 2" HF and a 15" LF
- Maximum 139dB SPL and 34Hz-20kHz frequency range is ideal for today's professional audio demands
- High power 2000W Class-D amplifier module
- 96kHz DSP and FIR filter for true high-resolution sound with super low latency
- Features Advanced FIR-X tuning, the combination of FIR filtering and correct EO for minimizing phase distortion
- Access a variety of DSP functions and load presets, or make precise adjustments to PEQ, delay and routing etc. via the intuitive LCD display
