

POWER AMPLIFIER

# PC SERIES

Touring model

PC412-D  
PC406-D

Installation model

PC412-DI  
PC406-DI

**YAMAHA**

## PC406-D

Power Amplifiers

*The PC-D / DI series are so much more than just high power amplifier. The impressive 20 x 8 input matrix capability of PC-D / DI Series amplifiers combines with Dante I/O to provide dramatic improvements to the versatility of any system. Featuring powerful onboard speaker processors as standard. PC-D / DI series are also compatible with ProVisionaire Touch and ProVisionaire Control, and we can provide customized remote controls if required. 600W x 4 at 8Ω.*
